

HOW STUDENTS CAN PREPARE

STOCK UP ON ESSENTIALS

Stock up on essentials (prescription/over-the-counter medications, food, etc.) with deliveries and shipping from grocery stores and pharmacies. Restaurants can also deliver, so make sure to see what delivery service they're using before downloading any app.

MOVE SOCIAL ACTIVITIES ONLINE

Move social activities to online platforms to limit your exposure to others.

ONLINE COURSEWORK AND RESOURCES

Discuss your online coursework options with your professors and ensure your computer has the software you'll need. Also, find out about your library's digital catalog and make sure you know how to access the resources you have available.

ONLINE STUDY GROUPS

Arrange remote meeting groups for your study sessions or group projects.
